# In-Home Services

*There are a variety of services and programs that can be brought into the home to assist in keeping people safe and helping them to be more independent. Listed below are some of the more common services used. Other service and program information can be obtained from the ADRC.*

**Emergency Medical Alert System Providers:**

When emergency help is needed, the user can press the transmitter's "help" button, sending a radio signal to the console (connected to the user's telephone). This causes the console to automatically dial one or more pre-selected emergency telephone numbers. The transmitter can be worn around the wrist, neck, or attached to a belt loop. Some systems have the ability to sense when a person has fallen, and automatically calls for emergency help. There is a set-up fee and monthly charge. **In addition to the list below, some retail businesses sell similar response systems as well**.

# Housing Options

For up-to-date and accurate information on types of housing and locations, please call the Aging and Disability Resource Center at 608-723-6113.

**Apartments**–Apartment living could eliminate yard care, home maintenance and possibly climbing stairs depending on the various locations. Apartment living can also increase social contact as well as reduce housing costs. Grant County offers a variety of rental housing for all income levels. Please call for a list of subsidized apartments available in the county.
