ADRC Services

Information & Assistance Specialists (I&A)

Information & Assistance Specialists provide up-to-date information on many services and resources, including, but not limited to: home health agencies, transportation services, public benefits, housing options, personal care agencies, senior dining sites, home delivered meal programs, support groups, prevention classes, managed care, self-directed support waivers and much, much more!

- **Options Counseling:** Provides information to assist people to make informed choices about long term care options. When meeting with individuals and their families, an Information & Assistance Specialist will review the individual's personal history, preferred lifestyle and goals for the future; and will engage in a conversation about the full range of long-term care options available to the individual to maximize their independence and self-reliance.
- **Special Needs Youth Transition:** If you are a young adult transitioning from the school system and/or children's programs to adult programs, the Aging & Disability Resource Center is here to help you and your family make that transition as smooth as possible. Many changes in disability services occur when a student is between the age of 18 and 21. Information & Assistance Specialists at the Aging & Disability Resource Center can assist in answering questions you may have. We also have Youth in Transition booklets available at no cost.
- **Long Term Care Programs:** The ADRC is responsible for helping people access publicly funded long term care programs and assisting them in understanding all available options. We do this by determining functional eligibility,

facilitating the financial eligibility determination process and assisting with the enrollment process.

- **Nursing Home Relocation:** Some nursing home residents may qualify for care in the community rather than in the nursing home. Information & Assistance Specialists can explain these options to interested individuals.

Benefit Specialists

Elder Benefit Specialist: Assists individuals age 60 and older to obtain access to needed benefits and programs.

Disability Benefit Specialist: Assists individuals aged 17 and 9 months - 59 to obtain access to needed benefits and programs.

Benefit Specialists can help in accessing both private and public programs and benefits, and can provide information about consumer rights. They can provide information and advocacy on a wide range of issues and assist with the application and/or appeal process for public and private benefits like Medicare, Social Security, Medicaid, Disability, Senior Care, Supplemental Security Income and Medigap Insurance. Many of the benefit issues that people over the age of 60 and adults with disabilities face are very complex. Benefit Specialists assess the situation and discuss options so that persons can make an informed decision.

IN-HOME SERVICES

There are a variety of services and programs that can be brought into the home to assist in keeping people safe and helping them to be more independent. Listed below are some of the more common services used. Other service and program information can be obtained from the ADRC.

Emergency Medical Alert Systems

When emergency help is needed, the user can press the transmitter's "help" button, sending a radio signal to the console (connected to the user's telephone). This causes the console to automatically dial one or more pre-selected emergency telephone numbers. The transmitter can be worn around the wrist, neck, or attached to a belt loop. Some systems have the ability to sense when a person has fallen, and automatically calls for emergency help. There is a set-up fee and monthly charge. **In addition to the list below, some retail businesses sell similar response systems as well.**
