<p style="text-align: center;">If you want to tell us how our Nutrition Program makes a positive difference in your life, we would appreciate hearing from you! You can call us, or send us a note, to share your story!</p>		

The Older Americans Act (OAA) was enacted in 1965 to help develop new or improved programs which help older persons living in the community to do so with dignity and good health. One of the first programs established through the OAA was the elder nutrition program. The nutrition program is funded by a combination of federal and state funds, local public and private funds and participant contributions.

### **Congregate (Senior Dining) Meals**

Individuals eligible to receive meals on a contribution basis at a senior dining center are:

- Age 60 or older
- Any spouse or domestic partner who attends the senior dining site with their spouse or domestic partner who is aged 60 or older
- An adult with a disability, under age sixty (60) who resides in housing facilities occupied primarily by older individuals at which congregate nutrition services are provided is eligible to receive meals at the facility in which they reside
- A disabled adult who resides at home with an eligible older individual participating in the program
- ❖ Meal reservations are required and must be made the day prior to the day you wish to receive a meal. Please call the number listed on the other side of this sheet.

### **Home Delivered Meals**

Each application for home-delivered meals will be assessed to determine eligibility. An initial determination of eligibility may be accomplished via a detailed telephone interview and if tentatively approved, services may start prior to a complete assessment being conducted. Approval for home-delivered meals must be made by the agency director or nutrition program coordinator.

Determination of need is based on the following:

- Individual is unable to leave his or her home under normal circumstances. Flexibility is allowed for medical appointments and occasional personal reasons important to the individual's quality of life.
- Person is unable to participate in the congregate meal program due to physical or emotional problems.
- There is no spouse, domestic partner or other adult living in the same house or building that is both willing and able to prepare all meals.
- The individual is unable, either physically or emotionally, to obtain food and prepare adequate meals.
- Other criteria established by the nutrition program and approved by Area Agency on Aging.
- A home visit is conducted to assess nutrition and determine other related supportive service's needs. Referrals will be made as necessary. Reassessment of continued need for service shall be done in the home of the participant no less than once per year. Reassessments are necessary to establish continued program activity.

### **Frozen Meals**

Frozen meals *may* be available on a limited basis to individuals who are not able to receive daily meal delivery or who require extra meals for non-service days. Eligibility will be determined on a case-by-case basis and must be approved by the director and/or nutrition program coordinator. Frozen meals meet all the requirements of a complete meal as defined in the Nutrition Program Policy Manual. Participants must have adequate appliances and space to maintain the meals in a frozen state and for heating meals to a proper serving temperature.

Delivery is not guaranteed; participants must make arrangements for meal pick-up from a congregate site during regular site service hours.
