Grant County
Health Department
is your health department.

We are here to serve you:

Hospice*

We use a team approach to provide care and comfort for terminally ill patients and their families in their home or other setting.

Loan Closet*

Wheelchairs, walkers, commodes, and other equipment are available for short-time use. A small deposit is required.

*More information upon request.

Grant County Home Care

Grant County Health Department

(608) 723.6416

Why Grant County Home Care?

It's reassuring to have a nurse who knows your needs. We help individuals remain safely at home while recovering from traumatic injury or illness, when managing a chronic condition or post-surgery. It's even more reassuring when you're the sole focus of their attention and can get one-on-one care without distractions. Our nurses deliver the care you'd get in a medical facility with the added benefits of:

- Expert care without leaving the comfort of your residence
- Personalization and one-on-one communication
- A more relaxed and familiar environment post-hospital stay
- More affordable care that may be covered by insurance or Medicare

What We Can Do

Our team helps with:

- Infusion/IV therapy
- Ostomy care
- Feeding tube care for enteral feedings
- Catheter care
- Administering medication
- Medication management
- Monitoring changes or improvements in a patient's condition
- Post-op care
- Drainage tube care
- Wound care
- Post-orthopedic surgery care
- Pain management

Your Team

Skilled Nursing

Registered Nurses perform a variety of specialized and highly skilled nursing duties including **Certified Wound Care and Ostomy Management Nurses**

Home Health Aide

Care in bathing, dressing, nail care and hair care.

Physical Therapy

A physical therapist works with individuals in their home to regain or improve movement of the joints and muscles through exercise and other approved methods.

Speech Therapy

A speech (language) pathologist can provide in-home instruction in the production of speech sounds and swallowing.

Occupational Therapy

An occupational therapist aids in improving daily living skills, fine motor coordination and memory strategies.
